

Standing Order

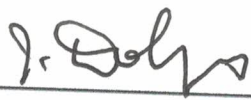

I have reviewed and approved as Camp4Kids general physician the delivery of medical care covered by Camp4Kids Health-Care Policies and Procedures, in addition to Camp4Kids Camp Health Care Plan.

I have reviewed these documents to insure they cover the following:

- identify the patient population to be treated according to the standing orders – *Camp 4 Kids camping population.*
- specify which acts require any particular level of experience, training, education or licensure – *must have a licensed RN/LVN/ and or Medic on hand at all times while at camp. In case of emergency a person trained in CPR/First Aid may assist as required, or if no RN/LVN and or Medic is immediate available may perform whatever necessary medical procedure is needed in order to ensure the safety and wellbeing of the children and staff at Camp4Kids.*
- specify those who may perform the actions required under the standing orders – *only a licensed RN/LVN and or Medic unless not available, then by a person holder a current CPR/First Aid certificate.*
- set forth any specialized circumstances under which a person implementing the standing orders is to immediately communicate with the patient's physician concerning the patient's condition – *if a camper or staff member is hurt, - the RN/LVN and or Medic will immediately contact the Camp4Kids Camper Director who will contact the parent/legal guardian who is to contact the patient's physician concerning the condition.*
- state any limitations on the practice setting, if any, in which the standing orders may or may not be performed – *these standing orders only apply to Camp4Kids while at camp and must be reviewed annually.*
- provide for a method of maintaining a written record of those authorized to perform the duties prescribed in the standing orders – *all medical procedure will be documented by the RN/LVN and or Medic on duties and all records will be kept for the statutory period as outlined by the Board of Director of Camp4Kids and/or ACA requirements, or the State of California.*
- establish a method for initial and continuing evaluation of the competence of those authorized to function pursuant to the standing orders – *I review and help evaluate the medical procedures of Camp4Kids on an annual basis.*

Date June 21, 2023

Approved by:

 M.D. DOBYNS

Standing Orders must be reviewed and updated as necessary, and signed and dated at least annually.
